WASH MOTORCYCLES ANY TIME, ANY PLACE WITH JUST ONE GALLON OF WATER — AND NO RINSING!

New Product Takes The Work And Mess Out Of Washing Bikes!

The weekend motorcycle washing ritual may be as American as apple pie, but until now lugging those buckets of soapy detergent, hosing off the suds, and getting soaked in the process made it a messy and tedious chore. New **PROTECT ALL QUICK & EASY WASH** takes all the mess and bother out of bike washing, because one ounce mixed in just one gallon of water provides the cleaning power to wash an entire motorcycle, from windscreen to tires — and it doesn't need any rinsing. **QUICK & EASY WASH** is sponged on, then chamoised dry. No hose, no soapy detergents, no wasted water, no mess. Dirt and grime are loosened and lift right off, without leaving streaks or smears.

Because it uses so little water and requires no rinsing, **QUICK & EASY WASH** can be used any time, and any place. It's the perfect solution for areas where water use is restricted, such as campgrounds, parks, garages, marinas and airplane tiedowns. Apartment and condo dwellers, who generally have no convenient place to wash a bike, can turn their parking slots into personal car washes. In cold weather, home owners stay warm and dry while they wash their motorcycles right in the garage.

An effective cleaner for all painted surfaces, fiberglass, aluminum, chrome, stainless steel, glass, Plexiglas®, vinyl, rubber, plastic, wood, tile, Formica®, marble and Corian®, **QUICK & EASY WASH** is a good way to clean and save water inside and outside the house. Mixed with just one gallon of water, it provides enough cleaning product to clean an entire kitchen, leaving tile surfaces, counters, floors and appliances gleaming. Outdoors, it will make cars, trucks, vans, RVs, bikes, motorcycles, boats, aluminum awnings, patio furniture and windows shine — without ever having to uncoil the garden hose.
