BEAUTIFY AND PROTECT THE INTERIOR OF YOUR HOME WITH ONLY ONE PRODUCT

You clean, scrub, polish and, before you know it, the dust and dirt come right back again! Finally, a new product — ONE PRODUCT — that leaves an anti-static, water repellent, lustrous shine and protective coating on almost every household surface. In just one quick and easy step, **Protect All Shine Plus** polishes, waxes and protects painted surfaces, aluminum, chrome, glass, stainless steel, brass, wood, porcelain, enamel, acrylic, fiberglass, and more. **Protect All Shine Plus** even treats vinyl, rubber and plastic to a clean, dry, natural appearance.

Sticky cooking grease, fingerprints and water spots wipe off quickly and easily from range tops, refrigerators, cabinets, and light switches. **Protect All Shine Plus** beautifies and protects furniture, mirrors, windows, Formica®, Corian®, bathroom fixtures and hundreds of other surfaces around the home and office. It leaves a gleaming shine you can actually feel, without hard rubbing.

Regular use will keep lawn furniture, lawn mowers and garden tools looking like new! The Ultra-Violet blocker in **Protect All Shine Plus** helps protect surfaces from deterioration when exposed to the sun. An additional benefit of **Protect All Shine Plus** is that it acts as a dry lubricant with no oily residue on hinges, key locks, sliding patio doors, closet door rollers and wooden drawer slides.

Protect All Shine Plus is available in 6 ounce and 13.5 ounce aerosol cans containing no CFC's, 16 ounce bottle and one gallon jugs. For more information, contact Protect All, Inc., 1910 East Via Burton Street, Anaheim, CA 92806-1215, (800) 322-4491, FAX (714) 635-9716. Our web site address is www.protectallshineplus.com.
