

## Protect All - The Easiest of Easy Cleaners

It takes a lot to impress me, so when I was given a can of Protect all and told it would not only clean my bike without the use of water, but would clean just about everything else I own, as well, you can imagine my skepticism.

I thought to myself, "Here's a product that can polish my chrome, shine my tanks like wax and remove the dead bugs from my windshield. Now they want me to polish my furniture, scrub my woodwork and shine my stereo with it, too? "What's wrong with this picture? There is no one product on the market like this.

Open mouth, insert foot. Boy, was I wrong.

One can of this stuff did indeed shine my bike so it looked like new, and I didn't even have to wash it first. One of the sheer beauties of Protect All, it saves time. And because it comes in small cans, it fits easily into any saddlebags. It'll clean your bike, your car, your camper, stove, refrigerator, and furniture.

It leaves a beautiful high-gloss shine and also serves as a dust repellent. After a week, a light dusting on anything you've used Protect All on will return to its original sheen.

Personally, I found it to be amazing stuff. It has replaced my bike wax, chrome polish, auto wax and polish, furniture polish and other costly under-the-sink-collectibles. I save time, money and room. You can't beat that.

Protect All can be found in any local auto or motorcycle parts and accessory store, or for more information contact Champions Choice by calling 1-800-322-4491 (in CA 714-635-4491).
