Riding Around

It's Easy As One Two

Petrochem's Protect All is a new cleaner and polisher that works on any painted or polished surface, including chrome, vinyl, plastic, and rubber.

We received several cans here at *Northeast RIDING* and found the manufacturer's claims to be valid. Protect All provides the over-the-road traveler with a quick, easy alternative to washing his or her motorcycle. It also works well on windshield, faceshields, and helmets to remove bugs and road grime.

Using Protect All is just as easy as wiping it on and then wiping it off to create a just-waxed shine and feel on the bike.

Protect All is available at your local dealer of Champions Choice, Inc., P.O. Box 5968, Orange, CA 92613, (714) 635-4491.
