

## No Rinsing

Protect All Quick and Easy Wash enables RVers to wash an entire vehicle with 1 ounce mixed in just 1 gallon of water, and it doesn't need rinsing. Quick and Easy Wash is sponged on, then chamoised dry.

Because it uses so little water and requires no rinsing, Quick and Easy Wash can be used any time and any place, the manufacturer says. It is offered as an effective cleaner for all painted surfaces, fiberglass, aluminum, chrome, stainless steel, glass, Plexiglas, vinyl, rubber, plastic, wood, tile, Formica, marble and Corian. Quick and Easy Wash can also clean interior surfaces.

Protect All also provides a protective treatment for fiberglass, dashboards, tires, vinyl, rubber and plastic; a maintenance cleaner for glass and mirrors; a polish for chrome, aluminum and brightwork; and a wax for painted surfaces and wood.

After washing your RV exterior, spray on Protect All and wipe dry for a lasting shine without polishing. A new UV blocker has been added to Protect All to aid in preventing oxidation, fading and deterioration caused by the sun's ultra-violet rays.
